

Application No. 09/824493
Amendment dated September 25, 2006
After Final Office Action of July 25, 2006

REMARKS

In the Office Action dated July 25, 2006, all the claims 1-41 of this application were rejected under 35 U.S.C. 103(a) on the basis of Rosner in view of Forth. Submitted herewith is a supplemental declaration providing further evidence of the reduction to practice of the present invention prior to the November 28, 2000 filing date of the Forth reference. This supplemental declaration is signed by one of the two co-inventors and is currently being signed by the other co-inventor, and the document with both signatures will be filed within the next few days. It is respectfully submitted that this supplemental declaration, combined with the declaration filed with the response to the previous Office Action, removes the Forth reference, and thus any rejections based wholly or in part on the Forth reference are overcome.

Dated: September 25, 2006

Respectfully submitted,
